The PENNSYLVANIA GAZETTE.

Containing the Freſheſt Advices, Foreign and Domeſtick.

LISBON, *November* 28.

THE Treaty entered into, concluded and agreed upon, on the 13th of January laſt, between our Court and that of Madrid, in regard to the Exchange of the Iſland of St. Sacrament, and the Adjuſtment of the Diſſentions and Debates that had ſubſiſted on Account of the Boundaries or Limits of the reſpective Poſſeſſions of the two Courts in the Weſt-Indies, has at laſt been confirmed by his Majeſty; and in Conſequence thereof, expreſs Orders have been ſent to the Governor of the Braſil, to evacuate the aforeſaid Iſland, in Conformity to ſaid Treaty.

Dec. 1. The Brazil Fleet is daily expected here, and is reckoned one of the richeſt Fleets that has come from thence for many Years.

Peterſburgh, Dec. 4. A few Days ago Advice was received at Court, by an Expreſs from M. de Nepleus, our Miniſter at the Ottoman Porte, that the Grand Vizir had notified to him, and to M. Penckler, the Auſtrain Miniſter, that the Grand Signior his Maſter was determined to name ſhortly two Baſhaws as Miniſters to the Court of Peterſburgh and Vienna, in order to give them freſh Aſſurances of his invariable Reſolutions of preſerving a good Underſtanding with thoſe two Courts. This Expreſs has given great Satisfaction to her Imperial Majeſty, who immediately ordered the Contents of it to be communicated to the Britiſh, Auſtrian and Dutch Miniſters. By our laſt Letters from Perſia we learn, that the Troubles in that Kingdom are daily augmenting; and that the different Parties are puſhing on the War with great Barbarity, ſo that there is not the leaſt Likelihood of an Accommodation.

Paris, Dec. 11. His Majeſty being deſirous of making his Acknowledgments to the late Marſhal Count de Saxe, for the ſignal Services, which he did him during the late War, and of perpetuating the Memory of ſo intrepid a General, has determined to erect a Monument or triumphal Pillar, with ſome ſuitable Inſcription to his Honour: But in what particular Spot the ſaid Pillar is to ſtand, is not yet determined.

Beſides what has been already ſaid in regard to the Codicil of the ſaid Marſhal, that General has deviſed to Count Frieſeland, over and above the Regiment of Uhlans, his large Diamond of the Order of the White Eagle, which is valued at 60,000 Livres, and has given him, moreover, all the Horſe was poſſeſs'd of at Chambord, which Effects are worth at leaſt, 400,000 Livres.

The Count de Bellgarde is left Reſiduary Legatee only.

The Count de Piolinc, whom he has conſtituted and appointed the Executor of his laſt Will and Teſtament, is intitled, by a particular Deviſe, to his Picture ſet with Diamonds.

The ſaid General has given the Marquis de Sorbis, a Legacy of 100,000 Livres; and to all his Domeſticks Legacies in Proportion to their reſpective Stations.

Berlin, Dec. 29. The Margrave of Brandebourg Schwedt is arrived here, and propoſes to ſtay ſome Time. On the 22d Inſtant, the Chevalier Keith, Lieutenant Colonel, one of his Majeſty's Aids de Camps, and Nephew of Field Marſhal Keith, was married to the only Daughter of the late M. de Suhm, one of his Majeſty's Counſellors, and heretofore Ambaſſador from the King of Poland to the Court of Ruſſia.

Legborn, Dec. 20. Letters from Sicily bring Advice, that the late Tempeſts have done a great deal of Miſchief on the Coaſts of that Kingdom; that ſeveral Merchantmen that lay in the Road of Palermo, having broke from their Moorings, ſunk in Sight of that Port; and that four Algerine Xebeques were wreck'd on the Coaſt near Palermo, but the Crews got ſafe to Land, though they had not yet been diſcover'd in the Country. It is thought that theſe Xebeques were Part of an Algerine Squadron of 11 Sail, that appeared a few Days before on the Coaſt of Sicily.

Copenhagen, Dec. 26. The Mathematician who was ſent by the King ſome Time ago into Iceland, to make Aſtronomical Obſervations, and examine into the Nature and Productions of that Country, has ſent Memorials concerning the Diſcoveries he has made. He obſerves, among other Things, that this Iſland produces a great Quantity of Saltpetre, and there is Earth in ſome Places of it fit to make China, and Stones there which contain Silver, &c. He has ſent ſome of theſe Stones here, and according to the Aſſay which was made of them, it appeared that 100 lb. Weight of them, produced ſix Ounces of fine Silver.

Neufchatel, Dec. 30. Divers French Sea Officers are actually in this Town, and their Buſineſs is to enliſt the Deſerters of their Nation that may be found here and in other Parts of Swiſſerland, being impowered to grant them a Pardon, upon this expreſs Condition, that they ſhall ſerve the King faithfully during ſix Years in the new Marine Independent Companies of light arm'd Troops; and that Term expired, they ſhall be free to withdraw witherſoever they pleaſe, without being liable to be moleſted on Account of their former Deſertion. Thoſe Officers allow the new liſted Men ten Sols per Diem, and the firſt Comers are to be preferr'd to a Halbert and higher Pay.

Francfort, Dec. 30. We have received Advice, that the Town of Schonenberg, in the County of Hohenberg in Auſtria, has been almoſt reduced to Aſhes by a great Fire that lately hapened there.

Hambourg, Jan. 1. The laſt Letrers from Stockholm take Notice, That a great Quantity of Timber was to be forthwith ſhipp'd off in the Ports of Sweden for the Uſe of the French Royal Navy, purſuant to a Contract lately made.

Francfort, Jan. 2. The French Court has bought up above 1200 Horſes in the Empire, for remounting her Cavalry, and alſo a great Quantity of Swords of the Fabrick of Sholingen, for the Uſe of the German Regiments in her Service.

Bruſſels, Jan. 4. We are aſſured that the Government has reſolved to have a Flying Camp of 6000 Men in Flanders next Spring, 1800 of whom will be alternately employ'd in digging the new Canal that is to be made in that Province.

Madrid, Dec. 12. The Treaty of Commerce between our Court and that of London, has not put an End to M. Keene's Negotiations. That Miniſter, indeed, deliver'd on the 3d his Maſter's Ratification of that famous Treaty; but he at the ſame Time communicated to our Miniſters a new Commiſſion with which he is charged, of infinitely more Importance than that which he has ſo happily concluded. It does not, it is true, ſo much concern us, yet ſtill it is of the higheſt Conſequence.

Berlin, Jan. 1. There continues from Time to Time to arrive here Foreigners, in order to take Part in the new Eſtabliſhment of the Company of Embden. Amongſt others a Merchant of Bruſſels has offer'd to lend the Company 700,000 Florins upon certain Conditions. A Perſon from Bruſſels wrote to Voltaire to obtain him an Employment on board the firſt Ship which the Company ſhould ſend to China. The Poet anſwer'd him by a Sort of Fable, which was: "A Traveller arrived at a certain City, where he underſtood that a great Lord intended to build a ſumptuous Palace, the Plan of which was ſcarcely form'd, and applied to be Porter to the Palace. You ſhall, ſaid the Lord, be Porter, provided you live to ſee it finiſh'd."

LONDON, November 22.

By a Letter from Inverary this Poſt, we are told, that the two Deputies from the Moravians, are arrived there, and buſied in viewing that Country, in order to chuſe a proper Place for ſettling a Colony fit to accommodate upwards of 2000 *People.*

December 14. *Yeſterday Mr. Alderman Janſen, Member of Parliament for the City of London, was married at St. George's, Hanover Square, to Miſs Soulegre, Daughter of Colonel Soulegre of St. Kitt's; a young Lady of a conſiderable Fortune, and deſerving of every Happineſs which the nuptial State can beſtow.*

Dec. 24. *By two Perſons arrived from Nova Scotia, we are informed as follows: That they have cleared the Ground nine Leagues round; that the Town of Halifax is compleatly fortified, and that upwards of* 300 *Artificers are employed in building Forts and Outworks on the Borders between them and the French Indians, who for ſome ſmall Time paſt, have not made any Attempt on their Settlement; that upwards of* 400 *French Families, who had put themſelves under the Engliſh Government, and ſettled there, had withdrawn themſelves, and many others are preparing to follow them, to Cape Breton and Canada, occaſioned by ſome fair Promiſes made to them by the Court of France, in Caſe of their Return, and on their Refuſal to outlaw them, &c. the News of which is conveyed to them by Prieſts, &c. which, tho' a great many of them are there, dare not publickly appear ſo. They have* 3000 *regular Troops, beſides four free Companies of* 240 *Men each, who conſtantly range about the Borders of the Colony: That, as yet, the Lands are not parcell'd out: That the Government of the Colony goes on without any Obſtruction whatever; Courts of Juſtice, and a ſtrong Jail being erected for Offenders, ſome of whom have been puniſhed according to their Demerit: That they have Proviſions of all Sorts in great Plenty, and the Country ſo pleaſant, that very few would deſire to return; and that two Churches are building, and near finiſhed, for the Worſhip of God, and the Propagation of the Goſpel in thoſe Parts.*

Letter from Paris, dated Dec. 22. N. S.

"*The Janſeniſts, who (by the Jeſuits, their Original Enemies) have long been repreſented as the worſt Subjects his Majeſty has, have now done an Act ſufficient to convince him, and all the World, to the Contrary; having throughout the Kingdom agreed to pay a ready Obedience to his Majeſty's Ordonnance reſpecting Eccleſiaſtical Revenues, and that not as of Compliment, but of Duty.*

Great Pains are taking at Rome by the Refractory Clergy, back'd by all the Intereſt of the Jeſuits, to engage his Holineſs to eſpouſe their Oppoſition; but 'tis hoped by all who wiſh well to the Peace of the Church, and believed by ſuch as ſufficiently know his Holineſs's truly great Qualities, that he will not at all intermeddle in the Affair, but ſuffer it to have its natural Courſe."

Dec. 26. *Mr. Edward Bright died at Malden in Eſſex, aged* 30; *he was ſuppoſed to be the largeſt Man ever lived in this Iſland; he weighed* 42 *Stone and a Half, Horſeman's Weight, and not being very tall, his Body was of an aſtoniſhing Bulk, and his Legs were as big as a middling Man's Body. He was an active Man till a Year or two before his Death, when his Corpulency ſo overpowered his Strength, that his Life was a Burthen, and his Death a Deliverance. His Coffin was three Feet ſix Inches over the Shoulders, ſix Feet ſeven Inches long, and three Feet deep; a Way was cut thro' the Wall and Stair-Caſe, to let the Corpſe down into the Shop; it was drawn upon a Carriage to the Church, and let down into the Vault by the Help of a Slider and Pulleys. He left a Widow big with her ſixth Child.*

James Stewart, Eſq; is made Admiral in Chief of his Majeſty's Fleets, in the Room of Sir Chaloner Ogle, Knight, deceaſed, and at the ſame Time received the Honour of Knighthood.

Jan. 3. *It appears upon a very ſlight Review of the* Publick Tranſactions *of laſt Year, that we have been induced by* ſome Fatality, *not only to take on ourſelves* new Burthens, *in the ſeveral* Contracts *and* Acceſſions *in* Germany *and the* North, *but alſo to give up ſeveral* Advantages *in the* Convention *with* S---n, *which were ſtill left to us by the* Diſadvantageous Treaty of AIX-LA-CHAPELLE.---

Extract of a Letter from Breſt, January 1. *N. S.*

"The Squadron of Men of War which I mention'd ſome Time ago to have been ready to ſail, is not yet departed; but we are now aſſured, that it is deſtin'd for America, as many Voluntiers for that Part of the World are already on board. It is not yet preciſely known when this Squadron will ſail; but if a Judgment can be formed from the Preparations, it will go from hence before the Winter ends. About 1206 Sailors are within a few Days arriv'd here, who have been regiſter'd in the Book of our Department. The Work in this Port, and in our Arſenals, goes on very briſkly. As ſoon as the Squadron abovementioned is compleated, another will with all Expedition be fitted out, which is to conſiſt of five Ships, from 50 to 70 Guns, and it is ſaid, is only to go to Toulon; but if intended for any further Deſign, it will appear ſoon after they arrive at that Port. Several new Ships are upon the Stocks, the Building of which is greatly facilitated by the Wood whereof they are to be compoſed being prepared for that Purpoſe in Sweden from whence it comes."

By a Letter from Paris we find a Report is current there, that two Engliſh Men of War had attack'd, on the Coaſt of Nova-Scotia, a French Frigate that ſerv'd as Convoy to two Merchant-Men; and that after a long and obſtinate Fight, they not only took the ſaid Frigate, but alſo the Merchantmen, which is look'd upon at Paris as a downright Act of Hoſtility, and therefore they expect ample Satisfaction for the ſame, in Caſe the Account be true.------ This we apprehend to be the Affair of Capt. Rous, of his Majeſty's Sloop Albany, mention'd in our Paper ſome Time ago, in the Plantation News.

The Hague Gazette aſſures us, under the Article of Intelligence from London, that France, in order to avoid freſh Diſputes about Nova-Scotia, has conſented, that the Limits thereof ſhall be ſettled according to ancient Treaties; but as neither by the Treaty of Ryſwick, nor that of Utrecht, it appears that thoſe Limits were fixed on the Footing as the Britiſh Court would have them, there will be a Neceſſity for reciprocally giving Way to a reaſonable Compenſation, ſo as to prevent any more Difficulties hereafter: And 'tis ſaid that a Proclamation will be publiſhed by both Parties in that Country, for leaving the neutral Indians to adhere to which Government they like beſt; upon Condition however, that they ſhall afterwards remain neuter on both Sides; and 'tis pretended that this is the moſt reaſonable and equitable Temperament that can be found. As for the neutral Iſlands, 'tis thought they will be divided between the two Nations in as equal a Manner as poſſible; and ſo the Diſpute about them will be terminated once for all---After which we ſhall ſit down under our Vine, and under our Fig-Tree, and neither France, nor Spain, nor Pruſſia, ſhall make us afraid.

Jan. 5. A Bill is preparing to be brought into Parliament to puniſh Sailors who ſhall ſell their Tickets for Wages and Prize Money to more Perſons than one; and likewiſe to puniſh all Agents and Buyers of ſuch Tickets, that ſhall preſume to take more than legal Intereſt for Tickets ſold to them; and to render more effectual the ſpeedy Payment of Seamens Wages, without any Deduction whatever.

Extract of a Letter to a Gentleman in Briſtol.

The Parſon of Hay (Mr Richards) died on Friday the 7th of laſt December, as it was ſuppoſed, ſuddenly. His Friends kept him about two Days, then buried him: But before that, ſeeing his Body and Limbs did not ſtiffen, they ſent for a Doctor, who bled him, and afterwards could not eaſily ſtop the Blood; who told his Friends that he was not dead, but in a ſort of a Trance: But on the Morrow they put him into his Grave. A Perſon walking along the Church Yard hearing a Noiſe in one of the Graves, ran away, and prevail'd with the Clerk to have the Grave opened; when they found a great bleeding at the Noſe, and the Body all over of a Sweat. From hence it is conjectured, he was not dead when he was buried; although now they were obliged to let him remain, as all Appearance of Life was vaniſh'd by his Interment.

From Denmark we are informed, that by the great Encouragement that King gives his Subjects to Trade, a Scheme is propoſed which will increaſe it, by forming a great Magazine of all kind of Naval Stores in the Iſland of St. Thomas in the Weſt-Indies, to ſupply all Nations who trade into thoſe Parts, and the better to accommodate Ships or Veſſels that may want Careening, to ſtop Leaks, or Repair; (an Invention formerly practiſed in Denmark) whereby a Ship either light or laden may be careened in 24 Hours, and fit to go to Sea again, if ſhe wants no other Repair. And it is ſaid the Propoſer of this Scheme is ſhortly expected in that Country, to have the Direction of the Undertaking.

Jan. 12. We hear, that in a ſhort Time ſeveral Men of War will be put into Commiſſion, which it is ſuppoſed are deſtined for the Baltick, in caſe Matters ſhould not be accommodated in the North.

A Committee, from the Governors of the Foundling Hoſpital, waited laſt Thurſday on the Society of the Free Britiſh Fiſhery, at Mercers Hall; when they generouſly offered to let ſuch Foundlings as had Strength ſufficient for it, to be employed in weaving Twine, making Nets, Ropes, &c. for the Service of the aforeſaid Society; which Propoſal was accepted of with due Thanks.

Jan. 14. At a General Court of the South Sea Company, held on Thurſday at their Houſe in Threadneedle-Street, it was reſolved to addreſs his Majeſty, that he would be pleaſed to continue to be their Governor, and that he would take into his Royal Conſideration the State of the Company, in relation to the Treaty with Spain.

Jan. 19. We hear that, by the Account to be annexed to the Addreſs of the South-Sea Company to his Majeſty, that he would be pleaſed to take their Demand on the King of Spain into Conſideration (the ſame having, for the Peace and Tranquility of the Nation, been ceded for 100,000 l. only) it appears that there is a Balance of upwards of 130000 l. in favour of the Company, beſides a great Demand of Tonnage, about the Quantity of each annual Ship, for which Sir Thomas Geraldino in the year 1732 offered the Company 70000 l.

Jan. 22. By a Letter from Cologne, of the 15th Inſtant, N. S. we learn, that the Week before a great Number of Horſes paſs'd thro' that City for remounting the French Cavalry in the Biſhopricks of Metz, Toul and Verdun; and that they are to be ſpeedily followed by ſeveral Thouſands more.------A ſhrewd Indication of the long Continuance of Peace.

Yeſterday the Lords of the Admiralty gave Orders for the rebuilding the Chatham Man of War, of 60 Guns, at Chatham.

Extract of a Letter from Fort William, in Lochaber, Dec. 14.

The Weather is ſo warm here, that Birds have now Neſts with Eggs and young Ones in them, in the Hills near us; ſeveral have been found within ten miles of this Place. Though this may ſurprize you, you need not doubt of the Fact, for we never knew ſuch fine Weather as we have had of late.

BOSTON, April 11.

Laſt Friday, *Phillis*, the Negroe Girl, who pleaded guilty of murdering her Maſter's Child, by Poiſon, as has been mention'd in our former Papers, received Sentence of Death, at the Superior Court of Aſſizes, &c. held here.

NEW-YORK, April 22.

Extract of a Letter from South-Kingſton, dated April 16. 1751, *in Anſwer to an Advertiſement of Thomas Bows, of Newark, inſerted in this Paper a Fortnight ago.*

---"At the Superior Court held here on the firſt Tueſday of this Month, Thomas Carter was convicted of murdering and robbing William Jackſon, of Virginia; for which Crimes he received Sentence of Death, and to be hung in Chains. Since his Trial he has confeſs'd the Facts; and that he took from Jackſon, his Horſe, 107 Deer Skins, in Silver and Gold to the amount of about Eighty Dollars, and about Forty Shillings Pennſylvania Paper Money. Notwithſtanding he has ſpent and ſquander'd away great Part of the Money and Effects, there is ſo much to be yet had, that it would be adviſable for the Repreſentatives of Mr. Jackſon, to take Letters of Adminiſtration in Virginia, and either come in Perſon, or ſend a Power to ſome proper Perſon here, to ſecure the ſame. Mr. Bows is deſired to inform, whether Mr. Jackſon had a Watch with him or not."
